

How does it apply?

- Have you ever been prompted by God's Spirit? What was it concerning? How did it motivate you to act? Or not act?

- How does your thinking about God connect with your own spiritual transformation? How does your thinking about God need to change to align with God's revelation of Himself?

- What are the idols of today's culture? Where are the marketplaces you go to where people hang out, that need to hear the Gospel?

- Is there a difference between reasoning with someone and presenting a position (our truth) to someone? In a culture of many truth's, how does one help another discover and hear "the truth"?

- Take some time to pause. Ask God to prompt your heart and mind to identify individuals who are in need of a relationship with Jesus. Write down their names. Pray and Watch for opportunities to dialogue with them about the God who made the world and everything in it.
